

PUMP HEAD – PH series

Max. Working Pressure 827 Bar

PH1003

PH1004

PH1006

FEATURES:

- ✓ Large 3/8" pressure port for max. flow
- ✓ Max. working pressure 827 bar
- ✓ The aluminum alloy pump block manifold and forged pump housing are ideally for easy portability maneuvering and flexible fixture.
- ✓ Can be used to pressurize water, chemical liquids to run the pipe leakage testing and maintenance jobs.
- ✓ Wide range of operating pressure to select from.

Technical Specifications:

Model	Operating Pressure	Volume per stroke	Max Handle Effort	Weight
-	bar	c.c	Kg	Kg
PH1003	827	2.36	30	4.4
PH1004	448	3.8	25	5.5
PH1006	206	8.5	26	5.9
PH1008	69	14.7	15	6.1
PH1012	52	34	26	5.7

PH=Pump Head, Following figures stands for the usable oil capacity (cc)
